

LogiLink®

24-Hour Mechanical Indoor Outlet Timer

Art. No.: ET0011

The mechanical timer automatically switches home appliances on and off according to your schedule every day. Just set your schedules and go, and you'll never worry if you left the lights on ever again.

Simple & Automated

Turn the dial with the arrow pointing to the current time, then set the timer by simply pressing every 15-minute pin down; program repeats every 24 hours.

Easily Turn On the Timer

Slide the timer button on the side to the clock setting to enable the timer function. Once set, the power of the connected device will switch on and off daily.

Multi-Programmable Timer

Set multiple timers over a 24-hour period.
