AIRBIRD C4

Right air pressure, made easy.

Get the same pressure in your tires every time with the Airbird C4. It's both super fast and more convenient than standard pumps.

The Airbird C4 detects current air pressure automatically and stops when the desired pressure is reached. With four presets and one custom mode, pumping is fast and easy. The hose is conveniently stored inside the pump itself.

Additionally, it features a built-in powerbank functionality that allows you to charge your devices on the go.

Specification:

Max Air pressure	Max Air pressure 10,3 bar- 150 psi
Air flow:	20-22L/m
Built in Li-on battery:	2x2000 mAh / 7.4V / 14.8Wh
Units:	bar, psi, kg / cm ² and kPa
Charging time	2-3hours
Charge input:	USB-C 5V/2A
Powerbank output:	USB-A 5V/2A
Working time:	20-25 mins
Accessories:	1 x Storage bag, 1 x Hose, 1 x Charging cable, 1 x Ball needle, 1 x Presta valve, 1 x Dunlop Valve
Warranty	2 Years
